

San Diego County DENTAL SOCIETY

MENTORSHIP PROGRAM

Mentors

As a seasoned dentist professional, are you looking for a way to share your hard-earned knowledge?

The San Diego County Dental Society's Mentorship Program aims to connect seasoned and more experienced dentists with our newer members. Your knowledge, expertise and guidance are invaluable to members who may be in the beginning stages of their career.

Our mentors provide guidance on everything from buying and growing a practice, building patient relationships, training and hiring staff, work/life balance and specialties such as prosthodontics, pediatrics, orthodontics and endodontics.

If you're ready to lend a hand to the next generation, mentoring is a rewarding way to give back to the community and engage with young dentists.

Mentor Requirements

- Active member of SDCDS
- At least 10 years of experience working as a dentist
- Commitment of at least 6-8 months
- Honor all appointments
- Respond to your mentees in a timely matter
- Keep information confidential
- Offer encouragement, guidance, support and provide honest feedback
- Be easily accessible to your mentees
